

Indian Creek Valley Hike & Bike Trail

The finished portion of the Indian Creek Valley Bike & Hike Trail extends for 6 miles between Indian Head and Champion, PA along scenic Indian Creek.

Restrooms and food are available in Champion, Melcroft, and Indian Head.

As you pedal, keep an eye out for MWA's Max B. Nobel Abandoned Mine Drainage Treatment System, more commonly known as Sagamore. This treatment system, designed to treat two abandoned mine discharges prior to them entering Indian Creek, was finished in 2000 and has resulted in dramatic improvements in water quality in Indian Creek.

The Mountain Watershed Association is presently conducting a Trail Feasibility Study to determine what options exist for extending the trail to its full potential. Eventually, the ICV trail could serve as a spur of the Great Allegheny Passage, which connects Washington, DC and Pittsburgh, PA. The ICV Trail could possibly join the Great Allegheny Passage in Connellsville, PA.
