Vegetarian meal option? yes no

French Creek Project's mission is “to conserve, protect and restore the French Creek watershed by advancing community stewardship of the region's rich natural and cultural heritage through the promotion of science, cooperation, innovation, creativity and sustainability.” The Project conducts that work with its numerous watershed partners to advance our vision that “the French Creek watershed will remain a national treasure, stewarded by a community that thrives in relationship with a healthy environment. Conservation will be rooted in cooperation and education, and guided by science.” French Creek is the most ecologically significant aquatic system in Pennsylvania, and among the richest in the United States. French Creek Project is sponsored by Allegheny College, the Pennsylvania Environmental Council, The Nature Conservancy and Western Pennsylvania Conservancy.

French Creek Project Office

BETTER STORMWATER MANAGEMENT THROUGH SITE DESIGN

Who should attend?

Engineers, contractors, municipal officials, elected officials, as well as citizens interested in learning how to improve stormwater management in developed areas.

Date: April 26, 2006

Time: 8:00 a.m.—3:00 p.m.

Meadville City Building

984 Water Street, Meadville, PA 16335

Schedule of Events

2:30 p.m.	Closing remarks
2:45 p.m.	Adjourn

Why Implement BMPs?

Why Implement BMPs?

Employing Best Management Practices (BMPs) can enhance landscape, protect drinking water supplies, prevent erosion and flooding, offer possible cost-savings, and keep streams clean.

Sponsors:

City of Meadville
PA Dept. of Environmental Protection
PA Urban and Community Forestry Council
PA Sea Grant
Crawford County Conservation District
Venango County Conservation District

This workshop has been funded in part by the League of Women Voters of Pennsylvania Citizen Education Fund through a Section 319 Federal Clean Water Act grant from the U.S. Environmental Protection Agency administered by Pennsylvania Department of Environmental Protection.
