REGISTRATION IS REQUIRED.

*C*HELtenham
RESIDENTS

protecting our watershed

Come learn how your yard and garden can restore our creeks and be part of the storm water management solution. Friends of High School Park are offering three workshops and a tree sale that showcase attractive and practical gardening solutions for managing storm water. Learn about riparian (stream-side) buffers, rain gardens, rain barrels and how to select and plant the right tree in the right place.

*Attend at least two workshops and you will receive a rain barrel for only \$15 **OR** a \$10 voucher for a tree from Collins Nursery.*

These workshops have been partially funded by the League of Women Voters of Pennsylvania Citizen Education Fund through a Section 319 federal Clean Water Act grant from the Pennsylvania Department of Environmental Protection, administered by the US Environmental Protection Agency.
