

Carnival Wheel Questions:

The carnival wheel comes with a template which will allow us to change and vary the questions depending on the event. Below are some ideas for questions and terms for participants to define. Depending on the age of the child we can tailor the question or give them multiple choices.

1. Define Watershed.
2. Define Runoff.
3. Define Non-point source pollution.
4. How can you conserve water?
5. Who lives in a watershed?
6. What can reduce storm-water runoff?
7. What is a rain barrel?
8. What is a rain garden?
9. Describe the water cycle.
10. What is an example of non-point source pollution?
11. What is an example of point source pollution?
12. What does your body need to survive?
13. What watershed are we in right now?
14. How much of the world's surface is fresh water?
15. How is water important to you?
16. Name a water body.
17. Where is most of the world's fresh water?
18. How does recycling help us conserve water?
19. How can you keep water clean?
20. What animals live in the water?
