

We can all have safe, clean, and affordable drinking water today, and in the future. Here are some ways you can help...

- Service your car regularly to prevent oil and other fluids from leaking on to the pavement.*
- Don't pour paint and other solvents like paint thinner down the storm drains. Better yet—use water based paints.*
- Reduce your use of toxic substances such as drain cleaners and pesticides. Consider using natural substitutes.*
- Keep litter off the street. Put trash in trash cans so it doesn't end up in our streams and river.*
- Put dog wastes in the toilet or trash can.*

For more information about our drinking water and what is being done to protect it, contact Dean Miller at the Reading Area Water Authority at 610-655-6252 or visit their page on the City of Reading's website: www.readingpa.gov/rawa
