Rain Barrel Project

Teachers of SRS, this Month SRS Home and School received a Mini-Grant from WREN (Water Resources Education Network) to educate the children of SRS about our Local Watershed. The grant has allowed us to purchase a Rain Barrel and create an educational brochure regarding our local watershed.

The Rain Barrel will be roaming around the School Playground and Lobby Area with a “***What is this thing?***” sign posted on it. Next week the Barrel will re-appear with a sign explaining that it is a rain barrel to be used to capture rainwater.

Next Week your student will receive a Brochure “***How Rain Barrels can help our Local Watershed***”. Later the Roving Rain Barrel will be installed at a permanent location-the SRS baseball shed. A gutter system will be installed at the shed to demonstrate an installation of a Rain Barrel to a building.

If you have any questions regarding the project contact me! If you have any cool ideas for the next project send them our way.
